Dear m.Stock Support Team,

I am writing to report an issue regarding a recent transaction from my m.Stock account.

An amount of ₹2,500 has been deducted from my account, but I did not receive any confirmation or clear information about the transaction.

Here are the details:

Transaction Amount: ₹2,500

Date: 8 August 2026

Transaction Status: Amount Debited

Issue: Money has been deducted but I am not sure why.

Could you please check this transaction and let me know why the amount was deducted?

If this transaction was made incorrectly, please help me get the amount refunded.

I would appreciate it if you could look into this matter as soon as possible.

Regards,
Yogendra
